September HLG Results

George Joy

There were ten hardy souls that showed up for the Hand Launch contest on Saturday, the 6th. The weather started typically overcast and cool, but by 10:00 a.m. the sun was out. The humidity was very high and the air was buoyant before the contest started. When the contest started the air got worse, so the 10,15,20,25, etc. was a tough round with very few maxes.

The air was challenging all morning and some very good skills were necessary to win a round, as evident by several rounds being won by a mere 2 seconds. I think Paul Anderson accomplished this feat at least twice.

Paul Anderson, and John Roe have come a long way in a short time. Look out everyone, these guys are getting tough.

We flew 6 rounds, with 1 throw away. The one thing that was mentioned was that I forgot was the combat contest that followed the HLG contest. Because of this oversight on my part, several pilots didn't get to go to lunch. I'm sorry for that, it won't happen again.

Everyone seemed to like the idea of a throw away, but the heats were too small, only 3 or 4 pilots per heat. We need a few more participants to get larger heats and not have everyone on the field every heat.
